

Subhashchandra Babu Madineni

Staff Research Scientist, Meta | IEEE Senior Member
Bellevue, WA, USA · smtharak@gmail.com · +1 716-398-8121
Google Scholar · OpenReview

RESEARCH INTERESTS

Artificial Intelligence · Machine Learning · Transformers & Large Language Models · Distributed ML Systems · Ranking & Recommender Systems · Sustainable / Green Computing · Cloud-Native Systems

PUBLICATIONS

- [1] URS Jagadish Almaipeta, **Subhashchandra Babu Madineni**. "Carbon-Aware SLO Enforcement for Cloud-Native Microservices Using Adaptive Reliability Policies." *Proceedings of IEEE ICAISET* 2026.
- [2] AKM Seetaram Rao Rayarao, Saraswati Mishra, **Subhashchandra Madineni**, Sahil Yadav. "A Scalable Knowledge Integration Framework for Large Language Models in Heterogeneous Enterprises." *Proceedings of the International Conference on Integrated Intelligence and Cognitive Computing* 2026.

EDUCATION

- **M.S., Data Science** (Distributed Systems & Machine Learning) — State University of New York at Buffalo
- **B.Tech., Electronics & Communication Engineering** — Lovely Professional University, Punjab, India

PROFESSIONAL EXPERIENCE

Staff Research Scientist, Meta — Bellevue, WA (Jan 2026 – Present)

Architected FSOP, an end-to-end platform orchestrating distributed ML experiments across production models; delivered 30–60% feature-space reduction on major ads ranking models with significant inference compute savings.

Senior Machine Learning Engineer, Microsoft Azure — Redmond, WA (Jul 2024 – Jan 2026)

Built PyTorch-based risk-classification models serving millions of users and end-to-end MLflow training pipelines.

Machine Learning Scientist II, Microsoft (Jan 2023 – Jul 2024)

Improved reliability and request handling for large-scale ML serving systems.

Software Development Engineer II, AWS — Seattle, WA (Dec 2021 – Dec 2022)

Modernized the core service-registry platform; built automated CI/CD with AWS CDK; contributed to the open-source CNCF Cortex project.

Research Scientist, City University of New York

Researched carbon emissions and sinks in global urban centers using Sentinel satellite imagery; built a multimodal news image ranking model with TensorFlow and PyTorch.

Software Engineer, Octagon Technologies — Bangalore, India (Feb 2017 – Jul 2021)

Built scalable data persistence layers and RESTful APIs with Spring Boot.

REVIEWING & JUDGING SERVICE

- **Technical Program Committee Member** — 2026 6th International Multi-Conference on Artificial Intelligence Technology (IEEE MCAIT 2026), Track 3: Intelligent Systems, Embedded AI, and Cyber Technologies
- **Reviewer Pool Member** — ICCAI 2027 (International Conference on Computing and Artificial Intelligence)
- **Referee** — Journal of Data Science

- **Registered Reviewer** — IEEE Transactions on Neural Networks and Learning Systems (TNNLS); IEEE Transactions on Knowledge and Data Engineering (TKDE); IEEE Transactions on Network and Service Management (TNSM); IEEE Transactions on Services Computing (TSC); IEEE Access
- **Volunteer Reviewer** — U.S. National Science Foundation (Research.gov reviewer pool)
- **Proctor** — IEEEExtreme 20.0, IEEE (global 24-hour programming competition)

PROFESSIONAL MEMBERSHIPS

- **Senior Member, IEEE** (Member No. 101276126)
- Reviewer expertise: machine learning, transformers / LLMs, distributed ML systems, ranking & recommender systems, sustainable / green computing, cloud computing

TECHNICAL SKILLS

PyTorch · TensorFlow · SparkML · MLflow · Kubernetes · Python · Java · Go · C# · SQL · AWS · Azure · Distributed Training & Serving
